

Mohammad Anas

Applicant — M.Tech Programme | IIIT Vadodara

✉ anas20761@example.com | ☎ +91 6260621758 | 📍 Gandhinagar, India

OBJECTIVE

A motivated Computer Science graduate currently pursuing MCA at IIIT Vadodara, seeking admission to the M.Tech programme to deepen expertise in Artificial Intelligence, software engineering and systems design. Equipped with strong foundations in full-stack development, database design, and API architecture through rigorous academic projects.

EDUCATION

Qualification	Institution / Board	Year	Score
MCA (2 Semesters)	IIIT Vadodara, Gandhinagar Campus	2025–Pursuing	8.1 CGPA
M.Sc. Computer Science	Vikram University, Ujjain	2023-2025	67.75%
B.Sc. Mathematics	Vikram University, Ujjain	2019-2022	62.67%
Class XII (CBSE)	St. Peter's Sr. Sec School, Jaora (M.P.)	2019	72%
Class X (CBSE)	St. Peter's Sr. Sec School, Jaora (M.P.)	2017	8.4 CGPA

TECHNICAL SKILLS

Languages	C, C++, Java, JavaScript, HTML, CSS
Frameworks	FastAPI, React (Basic)
Databases	MySQL
Tools	Git, VS Code

PROJECTS

SmartPlace — Smart Campus Placement Management System

Jan 2026 – Apr 2026

DBMS Course Project | IIIT Vadodara | Python (FastAPI) · MySQL · React · Google Gemini API

- Architected a three-tier web application with 35+ RESTful endpoints, a 12-table MySQL schema in 3NF, and role-based access control (TPO / Student / Company views).
- Designed and implemented the Dream Company Engine — a novel feature allowing placed students to apply for higher-package companies, enforced through six sequential API-level business rule checks.
- Built temporal profile tracking using valid_from / valid_to columns (slowly-changing dimension pattern) to audit every CGPA and placement status change throughout the placement season.
- Developed an AI Placement Coach module with three analytical endpoints: placement strategy ranking, CGPA what-if simulator, and rejection pattern analysis using pure SQL logic.
- Delivered a Placement Funnel Analytics dashboard (grouped bar chart via Recharts) giving placement officers real-time visibility into stage-wise applicant drop-off per company.
- Github: [the-misfittoy/smartplace-placement-system: AI-assisted Smart Campus Placement Management System](#)

EXPERIENCE

Private Tutor — Mathematics & Science

May 2023 – Mar 2025

Home Tuition | School Level (Class VI – XII) | Part-time

- Taught Mathematics and Science to school-level students on a part-time basis, covering core curriculum topics and exam preparation.
- Developed personalized teaching approaches to address individual learning gaps and improve conceptual clarity.
- Conducted regular revision sessions and assessments, resulting in consistent improvement in student performance.

TRAINING & CERTIFICATIONS

Software Development Training — CodSoft

2024

Online Industrial Training Programme | Domains: C++ and Java

- Completed structured, industry-mentored training modules covering object-oriented programming, data structures, and application development in C++ and Java.
- Implemented mini-projects under each domain including a console-based task manager (C++) and a student grade calculator (Java).

Career Essentials in Generative AI — Microsoft & LinkedIn

Jan 2025

Microsoft | Online Certification

- Completed Microsoft's official certification covering Generative AI fundamentals, Large Language Models, and responsible AI practices.

Career Essentials in Data Analysis — Microsoft & LinkedIn

Jan 2025

Microsoft | Online Certification

- Completed Microsoft's official certification covering data analysis techniques, data visualization, and deriving insights from structured datasets.

ACHIEVEMENTS

NIMCET 2025 NIT MCA Common Entrance Test AIR 905

2025

- Secured All India Rank 905 in NIMCET 2025 2014 a national-level entrance exam conducted by NITs for MCA admissions, competed by thousands of candidates across India.
- Qualified for and secured admission to the MCA programme at IIIT Vadodara, Gandhinagar Campus on the basis of this rank.

KEY STRENGTHS

- Strong grasp of relational database design, normalization, and SQL query optimization.
- Experience building full-stack systems with RESTful APIs and React-based frontends.
- Demonstrated ability to translate real-world problems into structured technical solutions.
- Quick learner with exposure to emerging AI API integration (Google Gemini).

DECLARATION

I hereby declare that all information furnished above is true and correct to the best of my knowledge and belief.
